ATTN: Mrs. Ilse Strafe

Date: Hong Kong, 29.08.2003

Dear Mrs. Strafe,

We would like to express our satisfaction with the oxygen machines, which we purchased both for office and home use.

Our staff absence figures due to illness have been reduced by approximately 70%. According to my records most sick leaves in previous years were due to URI related illnesses.

Additionally my staff emphasises to me that they feel less tired and have more energy.

The attendance figures again show me that staff leave the office in average around 8:30p.m. without any request for such overtime by the senior management.

Weather the great increase in turnover figures of 35% in 2003 can be solely contributed to the oxygen machines, one might doubt, but I feel that it contributed to it perhaps indirectly as shown by the a.m. figures.

Therefore I write your this letter as a little "Dankeschoen".

Yours Sincerely

Schutte & Panzer (Far East) Ltd
